## PUFFIN RUST REMOVER

Is an anionic waterbase modified phosphoric acid liquid additive. This product function is to remove rust in metal as part surface preparation process before painting application

### Features

- Water base
- Easy remove rust
- Fast dry
- Easy application by roll, brush and spray

### Recommended use

As rust remover as part substrate preparation before painting application

### Physical properties

Colour	haze clear
Solids (vol %)*	10+/-2
Flash point	Non-flammable

### Application methods

Roll system	Recommended
Brush system	Recommended
Wash system	Recommended

### Application data

Mixing ratio (volume)	Ready to use after proper stirring
-----------------------	------------------------------------

**Clean Up**

Clean all equipment with water

**Condition during application**

Apply at a temperature between 10°C and 35°C, Temperature of substrate should be minimum 3°C above the dew point of the air, the temperature and relative humidity should be measured in vicinity of substrate

**Storage**

The product must be stored in tightly closed container and keep container in dry cold, well ventilation space, away from source of heat and ignition.

**Handling**

Handle with care, stir well before use

**Packing size**

0,25 & 1 & 5 & 20 L
